

## WHICH BLACK INK SHOULD I USE?

All inks are available through your Demonstrator

### Classic Stampin' Pad – Basic Black #126980

Dye- Based Ink, Acid Free.

- Use for basic stamping, stamping sentiments, backgrounds etc.
- Do not use if you are going to color with Alcohol markers (Blendabilities), blender pen, aqua painter etc....the color will Bleed.

**DO NOT USE WITH BLENDABILITIES (or Copics)**

**Great for Basic Stamping like sentiments**

### StazOn – Jet Black #101406

Solvent Based

- permanent on pretty much anything, however: Alcohol based products will activate this ink and it will run –

**DO NOT USE WITH BLENDABILITIES (or Copics)**

**Great if you are getting your project wet!**

### Memento Black #132708

Dye Ink

- Fast Drying, fade resistant, acid free
- Ink will not be activated with Alcohol based products such as Blendabilities (or Copics)

**Great for Alcohol Markers**

**\*\*\*\*USE WITH BLENDABILITIES\*\*\*\***

### Digital Printouts – **Great for Alcohol Markers**

Alcohol markers will not activate ink from a laser printer or standard photocopier. They are toner-based devices and the toner fuses to the paper.

**Inkjet printouts** should be tested as each printer uses slightly different inks.

\*don't forget to clean the tip of your marker if one runs!
